C. S. Inman, V. O. Clinger and F. B. Billings, and families, motored to Santa Cruz Sunday, to spend the day at the beach. Mr. and Mrs. Clinger are from Michigan for the winter, and the novelty of enjoying a picnic dinner on January 25, was a treat not soon to be forgotten.

Electricians, plumbers, carpenters and paper-hangers will complete their work in the A. Swenson home, on Los Gatos Road, this week, and the family will be domiciled in their new home next week. Mr. Swenson, who sold his ranch on Johnson avenue, has been living at the J. Brynteson home while his new place, recently purchased of E. Poston, was being put in readiness for occupancy.

United States Attorney Annette Adams will address the women of Santa Clara county on the problem, and solution, of the high cost of living. Mrs. Robert Dean, president of the San Francisco Housewives' League, will also speak at the meeting, which will be held in the High school auditorium. It is probable that steps may be taken at the conclusion of the meeting to effect a housewives' league for San Jose and vicinity. The meeting will be held Saturday afternoon at 2 o'clock, at San Jose.

Asa and Ira Harris graduated from the Pacific Engineering School in San Francisco last week. Asa from the oxy-acetylene welding department, and Ira from the motor department. They, and Frank, have opened up a garage at Albion, Mendocino county, equipped to do all kinds of work, and expect to do big business, as theirs is the only welding plant in that section of the county.

Charles Thomson arrived Friday from his home in Albion, Nebraska, to take up a business course in a business college in San Francisco. He is glad to get away from his native weather, and stated to a Press representative that his parents expect to return to this community to live. His brothers will remain to conduct the farm work. Charlie hopes to be able to transfer to a San Jose school, later, that he may be nearer to Campbell.

Punditas Entertained At Evening Party

Altho many members of the Pundita Circle, of Campbell, were detained at home by illness, nearly three score guests, consisting of husbands, wives and families of the Circle, and many of their friends from other towns and states, assembled at "We and Our Neighbors" club house in the Union district, January 24, where they were charmingly entertained by the gracious hostesses, Mrs. W. M. Nelson and Mrs. E. O. La Montagne, of Union avenue.

Mr. and Mrs. Henry Watrous, formerly of Campbell, motored up from Gilroy for the occasion. Mrs. Watrous entertained with a dramatic interpretation of "The Going of the White Swan," the scene being laid in Labrador. Mrs. Watrous being enthusiastically encored, responded with a humorous dialogue of "Mirandy on Chronic Afflictions," which was very applicable to the many recent afflictions of members of the Circle. Hearty applause followed, and she was recalled a third time.

Music and dancing were enjoyed by the younger coterie, and card playing and social converse by their elders. Substantial refreshments brought to a close a delightful evening.

It was in the "wee sma' hours" of the morning before the last guests departed to their homes, and voiced deepest regrets at the removal of Mr. and Mrs. Nelson from their midst to Marysville the old home town of the Nelsons.

Annual Meeting of Improvement Club

The adjourned annual meeting of Campbell Improvement Club was held Thursday evening, a goodly number being present.

The committee on revision of the by-laws reported and the report was accepted and the new by-laws adopted. The principal change was the raising of the membership fee to \$2.50, and one membership being necessary to a vote, but no individual allowed but one vote.

The street lighting question was very much discussed, the lighting district being most popular with those present. Dr. Merrill urged the forming of a district on the basis that every one paid in proportion to his property, while the subscription plan always reached the few and always the same ones. Mr. S. G. Rodeck, one of the heavy taxpayers of the town, expressed his willingness to support either plan, as the lights were necessary, but thought the district formation advisable.

Mr. Sol Jacobs, manager of the California Canneries Co., was strong for the district plan, declaring that the impression of a well-lighted town on the traveling public, could not be overestimated, and no towns of this size were less lighted. All corporations which are benefited by the lights should help pay for them.

Messrs. E. R. Kennedy, J. S. Hagelin and H. W. Morton, all signified their desire for the district, Mr. Hagelin suggesting the fire district lines as a possible boundary.

On motion the chair appointed a committee to investigate the proposition of a proposed district, and report at the February meeting on boundary lines, number of lights and estimated cost. The committee consists of Sol Jacobs, E. R. Kennedy and H. W. Morton. It was suggested that the new plan be arrived at before the present lighting year closes, in April.

It was voted that Old Settlers Day be celebrated on Saturday, February 21, because of the regular date falling on Sunday.

Several suggestions were made to the celebration committees which will add to the features of the day. One that a salute be fired by a squad of our returned service men, in honor of the two boys who made the supreme sacrifice; and the community service flag lowered with ceremonies.

The newly elected officers are:

President, Dr. W. I. Merrill.
Vice president, Miss Mary Lewis.
Secretary, H. W. Morton.
Treasurer, Roy G. Archibald.

Retiring president Geo. S. Robson, has been more than busy looking after the interests and betterment of the town, but has been somewhat handicapped and embarrassed at times because of the lack of interest and support of his townsmen. He will still be in a position to advise and aid the new team when needed, and now urges everybody to get behind the "better and bigger Campbell" movement.

The following committees for the celebration have been appointed:

Chairman of the Day:—Geo. S. Robson.
Program:—D. H. Cramer, W. C. Bohnett, H. C. Smith, C. E. York.
Publicity:—C. H. Whitman, Mrs. H. C. Smith, Miss Mary Lewis.
Finance:—Sol. Jacobs, W. S. Shelley, F. S. Newcomb, R. Allison, A. J. Farley, I. W. Snow.

Snyder, C. D. Cutting and Mesdames J. F. Duncan, M. E. Wade, Lucy Smith, M. E. White, P. G. Keith, C. A. Sutter, L. F. Shaw, M. J. Wilson.

E. R. Kennedy has purchased the Henry Young property on McCoy avenue, and Mr. Young is moving to his ranch nearer town.

Miss Olive McConnell, who has been efficient bookkeeper at the Farmers Union store for the past year, will sever her relations with that firm, and take up shorthand at a business school in the near future.

A Bank is Made to Aid.

Sunical Olives

Will Get You!

Emerson once whimsically remarked of the ownership of land, that, at the start, "a man thinks he owns land, but soon finds that the land owns him."

The olive habit is like that. At first, perhaps, you don't care for olives. You are told, though, that you ought to cultivate the taste. So you make a start, you gather headway, and, just about the time you plume yourself on getting the olive habit, you suddenly realize that the olive habit has—got you.

Sad! But not hopeless. Not hopeless, at least, if you yield your enslaved appetite to the care of Sunical Ripe Olives. "Sunical" will do you good. They're meaty. They've flavor. They're nourishing. They'll hit the spot.

Twenty-five cents a pint, or, fifty cents a quart, isn't much for good olives—lustrous black, appetizing ones—like Sunical. (Say "Sunny-cal.")

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

EAGLE RANK IS HARD WORK

"Just what does a boy have to do to become an Eagle scout?"

To become an Eagle scout, a boy must first reach the rank of first-class scout. Three months is the minimum time required, during which period he performs 23 different tests, including fire-building, cooking, opening a bank account, first aid and bandaging, swimming, tracking, hiking, map drawing, and a study of trees, animals and stars.

Then the scout is ready to begin study for merit badges. These are emblems given for proficiency in certain lines of study.

The test is passed before an examiner, who gives the boy a certificate in evidence of the work. The scout now goes before a court of honor, composed of a group of business men, who examine his credentials, and vote to award him the merit badge.

When the scout has received five merit badges in this way he is designated a Life scout. Ten badges give him the rank of Star scout, while 21 are required for the Eagle degree.

Many of these tests are far from easy. In bird study, for example, the scout must know and identify not less than 50 different birds. In life-saving he must be able to rescue a boy of his own weight in deep water. In camping he must sleep in the open for 50 nights, and be able to make fire without matches. There are 59 merit badge tests.

SCOUT TROOP ENDS TROUBLES.

There is a troop of scouts in Ajo, Arizona, that is planning to "head the list"—not alphabetically, but scoutingly.

A meeting was recently held to plan the work for the year. E. V. Morgan is scoutmaster. E. A. Rodgers, New Cornelia power house foreman, who is experienced in this work, agreed to

take charge at least of one of the four meetings each month.

There are 25 members, which should be increased. A library, already started, will be added to.

In observance of the tenth anniversary of the boy scout movement next February, a play will be given by the boys.

Mr. Morgan said not money, but moral support, encouragement, and presence at weekly meetings of adult men, particularly parents of the boys, is desired.

SIBERIAN SCOUTS CALL TO US.

The chain of boy scouts around the world is one of the greatest guarantees of the civilization of the future.

From far off Krasnoyarsk in Siberia the boy scouts there have asked the great organization in this country for guidance in their program and for uniforms and equipment upon which they may model.

The letter comes to the national headquarters of the Boy Scouts of America at 200 Fifth avenue, New York, through the department of state at Washington from American Consul J. K. Caldwell at Vladivostok.

Vice Consul Edward B. Thomas at Krasnoyarsk says:

"I would like to give any aid possible to the scout movement here, for it is developing in the boys just those qualities of good service and good citizenship which are so needed in Russia at this time."

Their American brothers sent an immediate response for "a scout is a brother to every other scout—all the world around." Chief Scout Executive James E. West forwarded a full list of literature and scout equipment.

COURT WRIT SOUGHT TO COMPEL BALLOT

State Seeks Mandamus Order to Force Referendum on Prohibition Law

Bangor, Me.—The Supreme Court has been asked to issue a writ of mandamus to compel Governor Milliken to proclaim a day on which the people of Maine can vote upon the national prohibition law. The petitioner, Thomas Curran of Bangor, says he is one of 10,000 who signed a petition some time ago for a referendum on this question.

Washington.—Representative Sabath, Democrat, Illinois, has introduced a resolution declaring that whisky is needed as a "cure for influenza, which is alarmingly increasing," and proposing suspension for ninety days of provisions of the national prohibition law requiring special permits and reports from druggists, doctors and others as to the use of liquor for medicinal purposes.

The resolution declared its purpose was to "the end that whisky may be prescribed and obtained for medicinal purposes without unnecessary hindrance and delay."

Jersey City, N. J.—Efforts to have the Federal prohibition amendment declared an invasion of States' rights as declared by Governor Edwards in his inaugural address January 20 will be begun immediately in the United States Supreme Court, it has been announced after a conference here of the Governor and State Attorney-General McCran.

Manila, P. I.—Prohibition leaders here are advising non-payment of liquor taxes, local and territorial asserting they are illegal.

While local and territorial authorities are seeking collection of taxes, the prohibitionists have sought to prevent their payment on the assumption that the United States constitutional amendment providing prohibition is automatically effective in the Philippine islands.

The Philippine islands are still "wet." The United States District Court in the territory ruled that the constitutional amendment was inoperative in so far as the Philippines were concerned, because of its failure to specify application to the Philippines.

The Federal prohibition commissioner at Washington recently apparently upheld this decision by overruling the action of the Collector of Internal Revenue at San Francisco in holding up a cargo of liquors consigned to the Philippines, prior to January 17.

The shipment had been held up on interpretation that it violated the prohibition law, because it would not reach the Philippines before the operation of prohibition enforcement.

How long the Philippines will remain "wet" will be determined by the present session of the territorial legislature, in which the question of territorial prohibition will be fought out. Should the legislature determine that the islands remain "wet," the possibility of bringing before the United States Supreme Court the question of operation of United States Federal prohibition in the islands has been discussed.

RAID ON GROCERY STORE PRODUCES WILDCAT STILL

San Francisco.—C. S. Corcoran, who has a grocery store at 1203 Valencia street, was arrested by Revenue Agents H. M. Kupser and J. A. Robb for violation of constitutional prohibition. His arrest followed the finding of distilling apparatus and home-made whisky in the rear of his store, the revenue agents stated.

Besides the whisky, glycerine, coloring matter, and a bottle of genuine absinthe were found by the revenue agents. Collector Justus S. Wardell announced that action would be taken against Corcoran in the Federal Courts. Under the present law the mere finding of the liquor on the store premises is prima facie evidence of violation of the law.

Fifteen barrels of wine which were sent to Fort Bragg by motor truck on January 15, but failed to reach there because the truck broke down, were returned to storage in an Oakland warehouse. They cannot now be delivered to the consignee, unless the commissioner of internal revenue makes a ruling in his favor because of the accident.

WOMAN SENTENCED FOR BANK ROBBERY

Spokane, Wash.—Beth Hartman, wife of Leo Hartman, wanted here for the robbery of the Union Park Bank last December 12, pleaded guilty in Superior Court here to a charge of grand larceny in connection with the robbery and was sentenced to a term of six months to fifteen years in the State Penitentiary. Hartman, known also as Clark and Sims, is held at Marysville, Cal., in connection with the death of a bootblack. Mrs. Hartman told the Court she had begged her husband not to commit the robbery and he had promised he would not. She said she had not known where some \$600 he gave her came from.

It is proposed that the convention elect delegates to attend the National Convention to be held in Chicago in June. The initiative in calling the convention was taken by the Machinists' Union owing to the fact that neither the American Federation of Labor nor the California Federation would stand sponsor for the movement. All labor unions of the State are to be invited to send delegates to the convention.

Petaluma.—At a meeting of over fifty prominent citizens of this city and vicinity a campaign was formally inaugurated for the formation of a new county to be composed of southern Sonoma and northern Marin counties. After an opinion on the unconstitutionality of part of the present county division laws was concurred in by ten or more lawyers, and it was shown to be a saving to the taxpayers, it was decided to make a test case on the constitutionality of the present laws. The new county, if formed, would include Petaluma, Penngrove, Cotati, Lakeville, Novato, Point Reyes, Tomales, Valley Ford and Bloomfield.

Willows.—The Mills Orchard Company of Hamilton City has lost 800 hogs recently from some mysterious disease, according to James Mills. The United States Bureau of Animal Industry has made a complete investigation, but so far has found no remedy to check the disease. The carcasses of the hogs are cremated as fast as they die.

W. cards in their possession in violation of a county ordinance, have asked for deportation as all are aliens. Unless ordered deported, they will be placed on trial.

San Jose.—When E. Cabeca, a Milpitas rancher, returned to his home after a brief absence he found a man trying on a suit of his clothing. Chambers to draw a warrant against the \$3,000,000 appropriation by the 1919 Legislature for flood control work in the Sacramento-San Joaquin drainage district was taken under submission by the Third District Court of Appeal. The suit is intended to test the constitutionality of the appropriation. J. L. Atteridge, attorney for Controller Chambers, contended in arguments before the Court that the appropriation is in the nature of a gift and so is contrary to the Constitution. Robert Devlin, representing the Reclamation Board, argued the appropriation is payment by the State of its just share of flood control work.

Monterey.—At the Booth fish cannery a negro named Jennie Johnson climbed through a window and attacked a pretty Chinese girl named Elsie Lee with a big knife. She slashed her victim, inflicting severe wounds upon her shoulders, neck and arms, one thrust nearly severing her arm just above the elbow, and another making a bad gash in her lip. The negro was clad in men's clothing, the suit she wore having been taken from the residence of Frank Ferrara during his absence. The Chinese girl was in a hallway when attacked and her screams soon attracted other employees to the scene. At their approach the negro fled through a window. Later she hunted up the Chief of Police and surrendered. Jealousy is supposed to be the cause of the attack.

CATHOLICS PLAN TO VISIT CAPITAL IN MAY

Washington.—A great pilgrimage of Catholics to Washington will take place about the first of next May to witness the start to be made in the erection of a \$5,000,000 shrine at the Catholic University as a memorial to America's fallen heroes, and as a national expression of Catholic devotion to the Blessed Virgin, patroness of the United States.

The magnificent ceremony, over which Cardinal Gibbons will preside, will be an international event, as there will be representatives of the great shrines of the Blessed Virgin, both in South America and Europe, in attendance. Ground upon the site of the shrine has just been broken where one of the finest churches in America is to stand.

Gifts ranging from rare diamonds to children's rings are pouring in from all parts of the world to aid in the construction of the magnificent edifice. Hundreds of thousands of individuals from every state in the Union and from foreign countries as well are contributing to the construction fund, the sums being received, including gifts of \$50,000 and mites of a few pennies.

LAW OF TODAY STILL MYSTERY TO LAY MINDS

Berkeley.—Is the law of today as much a mystery to the lay mind as it was in the days of ancient Rome when the knowledge of the law was limited to members of the college of pontiffs, who numbered about one hundred?

This question was raised by Professor W. A. Merrill of the University of California in one of his college classes. The ancient Romans, according to Merrill, regarded the law as a thing sacred and holy, and for that reason they endeavored to keep the common people in ignorance of the law by veiling it in deep mystery, and so arranging their legal system that the pontiffs were the only men who had any knowledge of the legal procedure of the times.

"To a certain extent, the law of today is as mysterious a thing as the law of Rome," said Professor Merrill. "It is nearly impossible for anyone to gain any knowledge of the legal rules of the state from the codes of statutes, because the law in reality is not the wording found in the books, but rather the opinions of the men passing judgments according to their interpretation of the meaning of those words. The lay mind is as much in the dark after reading a section of the California codes as to the meaning of a certain law as the Romans were in regard to their rules before consulting a member of the college pontiffs."

BRIDE'S HUNT FOR NAVY MAN LEADS TO DEATHBED

San Francisco.—Mrs. Virginia Plonk, daughter of a prominent family of Norfolk, Virginia, who sailed from San Francisco in August on the United States Army transport Great Northern, returned January 22 on the China Mail liner Nile, after tracing her husband over more than a thousand miles of Chinese land and water, only to locate him a few hours before he died.

Before her marriage one year ago at Norfolk Mrs. Plonk was Miss Virginia Weaver. A few days after she became the bride of Lieutenant J. O. Plonk she bid her husband farewell, because Uncle Sam demanded that the Navy man proceed immediately to the Asiatic station. It was agreed that the wife should follow in a few months.

When Mrs. Plonk arrived at Shanghai she learned that her husband was stationed on a gunboat up the Yellow river. She followed the trail, and when she located the boat it was to discover that he had again been shifted. The hunt ended at the Yale Hospital at Chang Sha. The husband had just been operated upon and died soon after her arrival.

NEVADA CITY PAYS TRIBUTE TO PIONEER

Nevada City.—The funeral of John T. Morgan, retired banker and California pioneer, took place here today, with all business suspended during the obsequies. Masonic and Odd Fellows orders, in which the deceased was prominent for many years, had the services in charge.

Morgan came to California in 1852, first locating at Placerville, where he worked at his trade of blacksmithing. Later he engaged in the same business in the San Juan Ridge section of this county, continuing at the forge until 1871, when he was elected to a county office. On retiring from office he organized the Citizens' Bank, continuing as president or director thereof until his death. He was a native of South Wales and attained the age of 87 years.

Morgan's immediate family consists of four sons and three daughters, as follows: David E. Morgan and E. J. Morgan of Nevada City, the former president of the Citizens' Bank; Frank S. Morgan of Berkeley and Dr. A. N. Morgan of Brawley, and Mrs. Frank T. Nilon of Nevada City, Mrs. A. P. Moore of Berkeley and Mrs. J. H. Fuller of San Francisco.

REFORMERS WOULD CLOSE CITY SUNDAY

Thirteen Babies Born Out of Wedlock At One Home During 1919

San Jose.—Upon the heels of the coming of the constitutional dry period, reform forces in this city have turned their attention to the circulation of a petition to the City Council for the enactment of Sunday closing laws which will affect theaters, dance halls and various other places of amusement. An announcement of the purpose of the "reformers" has evoked the most sarcastic expressions imaginable from the "liberals," and one of the bitterest election contests in the history of the city is predicted in the event that the petition receives enough signatures to compel the city authorities to call an election.

Twenty-eight unfortunate girls, and thirteen babies born out of wedlock were cared for during the year, according to the annual report of the officers of the Florence Crittenton Home, made public here. Five girls were returned to their homes, four placed in positions, two transferred to positions, two ran away and five remain in the home. The youngest mother was 15 years old. Six of the girls were over 18 years old, and twenty-two were under that age. Officers were elected by the association as follows: Mrs. M. H. Osgood, president; Mrs. S. E. Smith, first vice-president; Mrs. F. W. Nohl, second vice-president; Mrs. H. M. Buffington, secretary; Mrs. F. E. Caton, treasurer; Mrs. A. A. Haggood, auditor.

FIVE CHILDREN, ELDEST 13, ON LONG JOURNEY

San Francisco.—Traveling alone from their home in Medford, Ore., to Shreveport, La., where they will make their home with their grandmother, five children, the eldest 13 years and the youngest a boy eighteen months old, arrived in San Francisco January 22 and were taken in charge by the Travelers' Aid Society. Their father, James Beasley, died in Medford several months ago, and the mother is now said to be in a critical condition and to have requested that they be sent to Shreveport before she dies. The children and their ages are: Sybil, 13; Phyllis, 11; Wilfred, 10; Lois, 8, and Adolphus, eighteen months old. After taking them to luncheon and a theater, representatives of the Travelers' Aid Society put them on a train.

L. S. MCGIRK IS TO MAKE ANOTHER TRIP TO SIBERIA

If the popularity of furs for the adornment of women continues as has been indicated by the tremendous increased value and seemingly insatiable demand, the enterprise of L. S. McGirk, who will start for Arctic waters about March 15 with a cargo of merchandise to exchange with trappers of the north, may turn out a wonderful enterprise.

Mr. McGirk is now in San Francisco arranging to buy and equip a ship with a cargo of merchandise most needed in the north.

Mr. McGirk is organizing a corporation that will admit of every investor sharing in the returns of the many opportunities of the great Arctic prospects.

"We might brighten this Congressional Record a whole lot," said Senator Sorghum, reflectively. "How?" "By cutting out a lot of these speeches and putting in cloakroom gossip."—Washington Star.

DECEMBER FOOD COST HIGHEST IN HISTORY

Newark, N. J.—Prices of living commodities were higher in December, 1919, than in any previous month in history; but January, 1920, promises to set another record. Dr. Royal Meeker, commissioner of statistics of the Department of Labor, declared in an address. Food in December cost almost twice as much as it did in the same month of 1913, he said. The average increase in wages has not kept pace with the increased cost of living. Dr. Meeker said, declaring that "the average family today does not live as well as it did in 1913."

9 PER CENT ALCOHOL AMENDMENT SOUGHT

Washington.—Amendment of the national prohibition law so as to permit the manufacture and sale of beer, ale and porter of 3 per cent alcoholic content, and wine of 9 per cent alcoholic content, was proposed today in a bill introduced by Representative Sabath, Democrat, Illinois.

It's a Gift

A sportsman of great imaginative gift was telling how at one shot he had bagged two partridges and a rabbit. His explanation was that though he had hit only one partridge, the bird, in falling, had clutched at another partridge and brought that to earth entangled in its claws.

"But how about the rabbit?" he was asked.

"Oh," was the calm reply, "my gun kicked and knocked the backward, and I fell on the rabbit as it ran past."—London Ideas.

Lights and noises were taboo, but
there was some verbal expression of
thought in undertones. The column
was slogging forward the night before
the attack on the St. Mihiel salient.

"Wonder where we're bound for
now?" spoke one doughboy during a
momentary check.

"I dunno," replied a voice in the
dark, "but I heard an officer say it
was Metz."

"Huh! Metz?"

Knew What He Was About
A member of a national medical as-
sociation tells the following story at
the expense of a physician:

"Are you sure," an anxious patient
once asked, "are you sure that I shall
recover? I have heard that doctors
have sometimes given wrong diag-
noses and treated a patient for pneu-
monia, who afterward died of typhoid
fever."

"You have been woefully misin-
formed," replied the physician, indig-
nantly. "If I treat a man for pneu-
monia, he dies of pneumonia."

Her Interpretation
The young man on his honeymoon
entered the crowded street car with
his wife.

"Do you suppose we can squeeze in

"Don't you think perhaps we had

was her embarrassed reply.—Ameri-

Leon S. McGirk, who returned from Siberia
after taking men and supplies there to establish
trading posts and open up placer mining last year,
is now at the head of the Siberian Commercial
Co., Inc., and is making preparations to return
to the northern fields about March 15, with a
fully equipped ship and a \$50,000 cargo of mer-
chandise to supply new trading posts and placer
mining camps.

The territory in which the Siberian Commercial
Co. will operate is removed at least two thousand
miles from the nearest point in Siberia where
there has been any trouble by reason of war and
only forty-nine miles from our own United States
possessions.

This is a virgin territory, rich in gold, platinum,
silver and copper. Millions of dollars in fur such
as fox, land and sea otter, sable, Siberian squirrel,
etc., are waiting for the fur trader.

McGirk declares there will be a big rush to the
placer fields in the Spring and is therefore pre-
paring to make an early departure.

If you would be interested in the development
of the immensely rich but undeveloped resources
of this virgin country where fortunes are going to
be made in the immediate future, address

Highway Improvement

PLAN TO GET FEDERAL HELP

Positive Obligation Should Be Placed
Upon States to Give Aid to
County Units.

That federal aid funds should here-
after be expended only upon roads
which are included in an intercounty
system of main highways, is becoming
a fixed policy in many states, despite
the fact that the present road act does
not require such use of the money.

Pennsylvania, Virginia, Ohio, Indi-
ana, Illinois, Wyoming and Washing-
ton recently have practically decided
to confine the federal money to roads
that count in well-defined state sys-
tems.

"If the national government is to
continue the policy of appropriating
federal funds to the 48 states for high-
way improvement, a positive obligation
should be placed upon the states to
give aid to their county units," asserts
President David Jameson of the Ameri-
can Automobile association, which or-
ganization devoted its country-wide
energies to the passage of the federal
aid road act and urged such legislation
at a time when it was far from popu-
lar.

"If it is the correct thing—and we
believe that it is—for the wealthier
and more settled states to give as-
sistance through the federal treasury
to the less populated and undeveloped
parts of the country, this national co-
operation carries with it an obligation
to the state to function as a common-
wealth in the form of intercounty
roads built and maintained entirely at
state expense.

"While it has been found necessary
in some states to employ automobile
registration money in floating state
bond issues, this should not be done
except as a last resort, simply because
there is need of yearly maintenance
funds and these are best supplied by
the registration and other taxes col-
lected from motorcar owners. The
total of this money for the whole coun-
try now exceeds \$50,000,000."

DANGER SIGNAL AT CROSSING
Starting Automatic Device Gives
Warning of Approaching Trolley
Car at Crowded Corner.

Where three streets come together
at one place the crossing is sure to
be dangerous, particularly if traffic is
heavy and there is a trolley line.

A startling danger signal has been
invented for such a crossing. It stands
on a corner that the cars pass, and is
so connected with the track that when

**CALOMEL MAKES
YOU SICK. UGH!**

"Dodson's Liver Tone" better
than calomel and can not
salivate.

Calomel loses you a day! You know
what calomel is. It's mercury; quick-
silver. Calomel is dangerous. It
crashes into your bile like dynamite,
cramping and sickening you. Calomel
attacks the bones and should never be
put into your system.

When you feel bilious, sluggish,
constipated and all knocked out and
believe you need a dose of dangerous
calomel, just remember that your
druggist sells for a few cents a large
bottle of Dodson's Liver Tone, which
is entirely vegetable and pleasant to
take and is a perfect substitute for
calomel. It is guaranteed to start
your liver without stirring you up
inside, and can not salivate.

Don't take calomel! It makes you
sick the next day; it loses you a
day's work. Dodson's Liver Tone
straightens you right up and you feel
great. Give it to the children because
it is perfectly harmless and doesn't
gripe.—Adv.

Muddy Roads Develop Dust
No Place for Water to Stand Where
Roadbed Is Kept Well Crowned,
Hard and Smooth.

The muddier a road gets the more
dust will result when it dries up. The
sides of the ruts are ground to dust.
The roadbed that is kept well crowned,
hard and smooth offers no place for
water to stand, so it will not develop
bad ruts or much dust.

A CONSERVATIVE
Everything keeps goin'
Yonder in the sky,
Though there isn't any knowin'
All the wherefore and the why.
Stars come out a-gleamin'
Then slip out o' sight,
Sunshine comes a-gleamin'
An' the moon shows up at night.

Comet comes a-whizzin'
We view it with dismay;
Distant suns are sizzlin'
In the Milky Way.
Fiery vapors flowin'
Threaten deadly shock—
But somehow things keep goin'
Reg'lar as a clock.

ington Star.

NOTICE
No. 11572
Treasury Department
Office of Comptroller of the Currency
Washington, D. C. January 9, 1921.

Whereas, by satisfactory evidence presented
to the undersigned, it has been made to appear
that The Growers National Bank of Campbell,
in the town of Campbell, in the County of
Santa Clara, and State of California, has com-
plied with all the provisions of the Statutes of
the United States, required to be complied
with before an association shall be authorized
to commence the business of banking.

Now therefore, I, John Skelton Williams,
Comptroller of the Currency, do hereby certify
that The Growers National Bank of Campbell,
in the town of Campbell, in the County of Santa
Clara, and State of California, is authorized to
commence the business of banking, as provided
in Section fifty-one hundred and sixty-nine of
the Revised Statutes of the United States.

In Testimony whereof, witness my hand and
Seal of office, this ninth day of January, 1921.

(SEAL) JNO. SKELTON WILLIAMS,
Comptroller of the Currency.

The Gospel of Thrift Disperses Worry.

On account of the many cases of sick-
ness the trustees closed the Campbell
grammar school Thursday noon for the
rest of the week. This will permit of
the thorough fumigation of the building
and recovery of some of the sick ones.

"MADAM, YOU BETTER BUY up a supply of these goods
which are sure to go higher." Such a statement is a very common
one in many of the stores today. It is positively a crime to urge the
public to buy by such means, for nothing in the world will boost
prices so surely and rapidly as the following out of just such advice.
The prices of commodities are still regulated to a great extent by
supply and demand. The buying of more than one needs takes just
that much more from the local supply, which must be replaced from
the source of supply. For instance, if every woman in the United
States should begin buying tennis shoes, and refuse to buy those
fancy, exorbitantly priced, high boots, how long would they be
priced in the store windows at \$16 to \$20? Tennis shoes would
then go soaring.

NOW THAT THE BOLSHEVIKS, or "won't works," are in
control in "Rush-ya," the laborers who want to and must work, are
compelled to do their turn, with a 12- and 14-hour day. Worse, and
more of it. And they don't get the wages of our 8-hour tradesmen
either. Why not turn this country to Bolshevism? Then none of us
would have to work, according to some of our recent agitators. Con-
sistency, thou art a jewel!

Locals and Personals Farmers, Attention

Mr. and Mrs. Warren McKenzie came
down from Richmond for a visit with
relatives while Warren takes his 56-hour
liberty.

The superstructure of the new J. C.
Ainsley cannery is fast taking form and
the concrete fire-proof wall next the
warehouse is nearing completion.

Mrs. Ivy Frost went to Highlands,
Saturday, to attend the funeral of her
aunt, Mrs. H. J. McGee. Mrs. Frost
returned yesterday bringing her daughter
Clarisse home with her.

J. C. Ainsley has purchased the Geo.
L. Speegle home on Hopkins Avenue,
and he, in turn, has bought the cottage
on south first street owned by Mrs. J.
D. Blaine, where the E. Hancock fam-
ily is living.

Regular meeting of Campbell Improv-
ment Club next Thursday evening, Feb.
5th. A full attendance is urged as the
various committees will make their re-
ports. Bring in the new memberships
to help the good cause along.

The lighting committee plans to start
the ball rolling for a special election to
organize a Campbell lighting district
early next week. A conference will be
held with E. E. Phelps and other resi-
dents of Sunnyside district relative to
that tract being made part of the Cam-
pbell lighting district.

Mrs. Ethel Clendenin Poss passed
away the first of the week, at Stockton,
the funeral being held at Palo Alto,
where her brother, Dr. Clendenin re-
sides. Mrs. Poss, formerly a resident
of Campbell, was a cousin of Claud
Gard, and the family attended the funeral
services Tuesday afternoon.

C. E. DeSelle has accepted a position
with the Geo. E. Hyde Co., for the en-
suing year, and will have charge of the
machinery department, giving his spe-
cial attention to the capping machines.
Charlie is an expert in that department of
the cannery industry, and the Hyde Co.
is to be congratulated on securing so
good a man.

The movie entertainment Friday night
at the Grammar school was well attend-
ed, and netted \$29.25. Music was
supplied by Irma Young, Lucille Strong
and Evelyn and Elva Crawford, to whom
the club extends its thanks. It is the
ambition of the club to complete payment
on the machine with not more than two
more entertainments at most.

Our community nurse, Mrs. Strange,
is having a busy time these days with
the many cases of illness in the com-
munity, and expressions of appreciation
for her help and practical assistance are
heard on all sides. Her time here is
Monday and Wednesday mornings and
all of Friday. It possible, have calls in
when she arrives so that she can plan
her visits to save time on the road.

Mr. C. W. Wolfe has been engaged as
superintendent of the J. C. Ainsley
plant, to take Mr. W. S. Shelly's place.
Mr. Wolfe was for years assistant su-
perintendent with Hunt Bros., and dur-
ing the war was stationed at the Fort
Mason quartermaster department, where
he inspected canned goods for the gov-
ernment. At present he is living, with
his family, in San Jose, but expects to
move here as soon as he can make ar-
rangements for a home. Mr. Shelly
will become assistant manager of the
business, thereby relieving Mr. Ainsley's
shoulders of part of the burden.

A very comprehensive and attractive
display of the sewing classes of the High
School was shown at the drug store
over the week-end. This included plain
dresses and suits and a number of pre-
tily designs in lingerie. Both teacher,
Miss Sprecher, and pupils were sub-
jects for many complimentary remarks.

"He will walk into the Sen-
ate on his heels—or stay out.
He never pussyfoots. And
what's more, he'll honor the
office as much as it honors
him. He is one of the big
men of America."

IN MEMORIAM.

Never—once—since the world began,
Has the sun ever once stopped shining.
His face very often we could not see,
And we grumbled at his inconstancy;
But the clouds were really to blame,
not he,
For, behind them, he was shining.
And so—behind life's darkest clouds
God's love is always shining.
We wail it at times with our faithless fears
And darken our sight with our foolish
tears,
But in time the atmosphere always clears
For His love is always shining.
In loving memory of my father, who
entered into his Rest, January twenty-
seventh, nineteen hundred and nineteen.
